Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Notice of the Office communication was sent electronically on above-indicated "Notification Date" to the following e-mail address(es):

jcartee@kmob.com eOAPilot@kmob.com

		Application No.	Applicant(s)				
		10/764,986	STREETER, JACKSON				
	Office Action Summary	Examiner	Art Unit				
		Henry M. Johnson, III	3739				
	The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
1)⊠	Responsive to communication(s) filed on <u>30 October 2007</u> .						
2a)⊠	1)⊠ This action is FINAL . 2b)□ This action is non-final.						
3)	3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is						
	closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.						
Dispositi	Disposition of Claims						
5)□ 6)⊠ 7)□	 4)						
Applicati	ion Papers						
9) The specification is objected to by the Examiner. 10) The drawing(s) filed on 19 July 2004 is/are: a) accepted or b) objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.							
Priority u	under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received.

Response to Arguments

Applicant's arguments filed October 30, 2007 have been fully considered but they are not persuasive. Oron teaches surface power levels consistent with those of the Applicant thus inherently yielding the same power intensities at two centimeters below the dura as claimed.

Terminal Disclaimer

The terminal disclaimer filed on October 30, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 7,309,348 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Correction of Inventorship under 37 CFR 1.48(a)

In view of the papers filed October 30, 2007, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by adding Luis De Taboada as an inventor.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Response to Amendment

The Declaration under 37 CFR 1.132 filed October 30, 2007 is insufficient to overcome the rejection of claims based upon Oron as set forth in the last Office action because: the

Application/Control Number:

10/764,986 Art Unit: 3739

declaration provides an opinion based on calculations regarding light penetration. The Oron patent discloses light source intensity consistent with that of the Applicant that yields the claimed penetration.

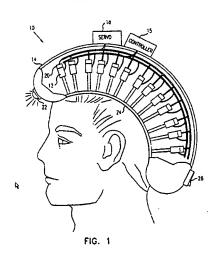

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 and 11-20 are rejected under 35 U.S.C. 102(b) as being anticipated by

International Publication Number WO 99/62599 to Oron. Oron teaches an apparatus for treatment of an ischemic region of brain cells in a cranium, comprising a skull covering adapted to cover at least part of the cranium, at least one guide attached to the skull covering, and a laser source which is operative to direct a laser beam through the at least one guide into the cranium. Treatment parameters are disclosed as a wavelength of 807 nanometers (page 6) with a 800 mW maximal output

power configured to penetrate a human skull so that the power to the treated brain tissue is 3 mW/cm² (page 8, lines 6-11). The Applicant discloses a minimum power of 100 mW/cm² is necessary on the surface (page 6 of the specification). With power levels consistent with the Applicant, the power intensity at two centimeters below the dura must likewise meet the claim limitation. Oron clearly understands the issues with depth penetration as indicated in the discussion on page 8. The duration time is disclosed as two minutes (page 6, line 25). Clearly

Application/Control Number:

10/764,986 Art Unit: 3739

the light source is placed adjacent the skull to penetrate the skull in a non-invasive manner (Fig. 1).

Where a reference discloses the terms of the recited method steps, and such steps necessarily result in the desired and recited effect, that the reference does not describe the recited effect *in haec verba* is of no significance as the reference meets the claim under the doctrine of inherency. Ex parte Novitski, 26 USPQ2d 1389, 1390-91 (BdPatApp & Inter 1993).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry M. Johnson, III whose telephone number is (571) 272-4768. The examiner can normally be reached on Monday through Friday from 6:00 AM to 3:00 PM.

10/764,986 Art Unit: 3739

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
